

Dane Shawl Edging Chart

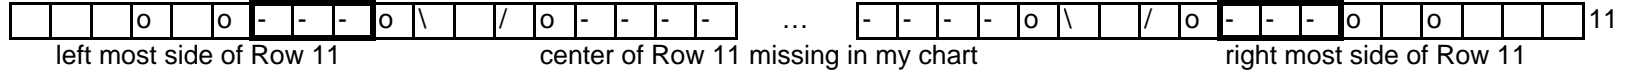

When I knit the Dane Shawl by Jane Tanner, I wanted a big shawl, and so knit 4.5 repeats of the 24-row lace pattern (Main Chart.)

This meant I had to make adjustments to the Edge Chart because I did not have the right number of stitches.

See original pattern at: <http://www.ravelry.com/patterns/library/dane-shawl>

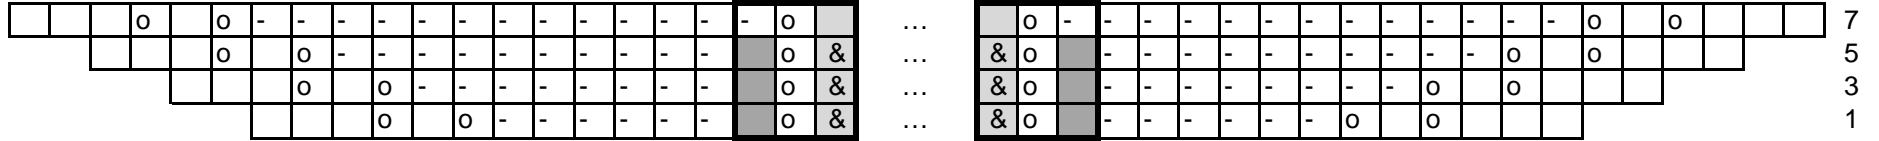

First, adjustment made on Row 11 of the **Main Chart** to set up for the edging changes:

(bolded box indicates change: was knit on orig pattern, is purl on my modified chart)

My mods to the rightmost and leftmost edges of the **Edge Chart**:

(In this case, the bolded box indicates overlap with the original chart, so you can see the placement of my modifications.)
